

FitBuddy AI — 8-Phase Documentation Package

Ordered repository structure: Phase 1 through Phase 8

How to use this package

Each numbered folder is a phase. Each phase contains three focused PDF documents so the project can be submitted, reviewed, or uploaded in smaller units.

Phase order

- 1. Brainstorming & Ideation
- 2. Requirement Analysis
- 3. Project Design Phase
- 4. Project Planning Phase
- 5. Project Development Phase
- 6. Project Testing
- 7. Project Documentation
- 8. Project Demonstration

Source basis

Content is derived from the supplied FitBuddy AI documentation, README, requirements/configuration information, and the nine supplied GitHub reference screenshots. The documentation itself notes that actual Python source files were not supplied.

Security note

The real .env file is not included because it contains credential-like values. Use .env.example as the safe configuration template.
