

FitBuddy AI — Demonstration Plan

Phase 4: Project Planning Phase

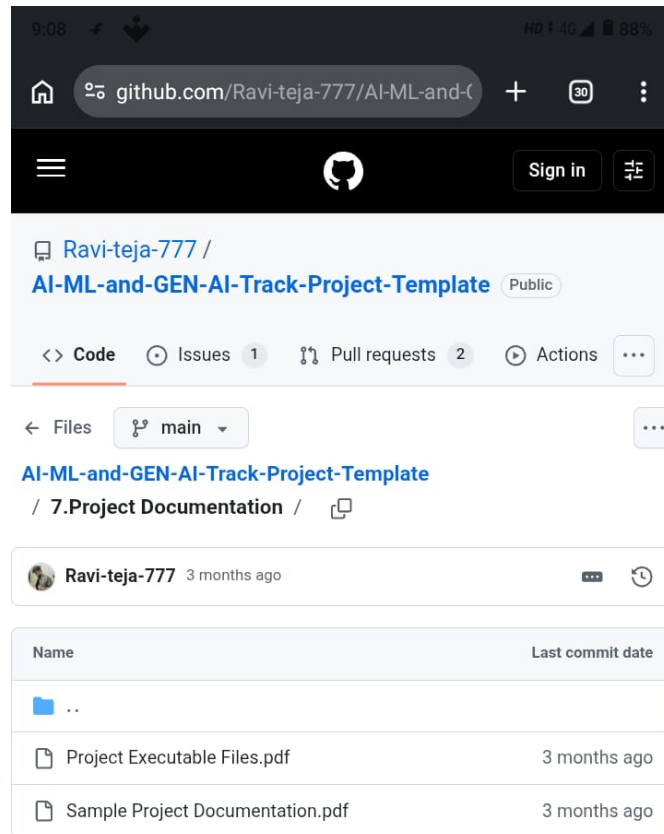

Recommended order

- Start the FastAPI server
- Open the FitBuddy AI home page
- Enter profile details
- Choose goal and intensity
- Click Generate My Plan
- Explain the 7-day plan and tip
- Enter one clear feedback request
- Click Update Plan
- Open /docs
- Run `pytest -q`

Expected evidence

The demonstration should show the complete user journey and the API/testing evidence documented by the project.

Reference Screenshot(s)

GitHub example: Phase 4 contains a single planning document.
